Richard G. Hoag, P.E.

***President and Principal Engineer
RGH Engineering LLC***

Richard Hoag serves as the President and Principal Engineer of RGH Engineering LLC where he manages all aspects of the management, research, design, strategic marketing, and operations since the company's founding in 2020.

Richard has served over 30 years in the United States high-tech industry specializing in the telecommunications, power and control systems. Over 20 years were spent supporting the development and deployment of central office switching equipment and ruggedized radio base station power equipment while working for Ericsson and Alcatel Networks. And in the following decade he has parlayed his experience into the aerospace and aeronautical avionics and militarized equipment for the U.S. Department of Defense, Air Force's Presidential Airlift and Special Air Mission from the Boeing Defense Company and Civilian Program Manager for United States Air Force. In recent years he has continued his civilian service by joining the Department of Veteran Affairs (VA), Office of Information and Technology where he manages the sustainment of the VA's largest data center programs out the Austin Texas headquarters. The program involves engineering management of multiple strategic construction contracts that totaled over \$100 Million and modernized or replaced aging power, cooling, security, and data center information systems.

He was born and raised in central Oklahoma and currently lives in Austin Texas. He has three adult daughters in college studying chemical engineering, architecture, and biology.
